

Aerial view

The Pegasus development includes two residential towers on a landscaped podium, overlooking Broadbeach. The landscape focuses on the resort style swimming pool including water cascades, a spa pool, poolside shelter, lounge areas and bathing facilities.

Lush tropical planting, sculpture and a circular lawn area provides a range of attractive garden spaces for both visual amenity from the towers above and passive outdoor activity. Dense, colourful planting and strong plantings of palms and trees, establish a high quality amenity for holiday visitors.
